

# Autumn 2020 **Digital Training Guide**

## Welcome to our Autumn 2020 training guide.

It has been a privilege to support incredible educators as they have adapted to what have been some of the most challenging times the sector has ever seen. We have seen teaching and support staff continue to deliver outstanding provision for the children and young people in their care; teaching and learning with resilience, dedication, creativity and professionalism whilst embracing new methods of delivery to ensure learning outcomes are met.

At NYES, we have always been passionate about both supporting you as educators and of course helping you to deliver the best possible outcomes for your pupils, our CPD and learning opportunities are fundamental to this.

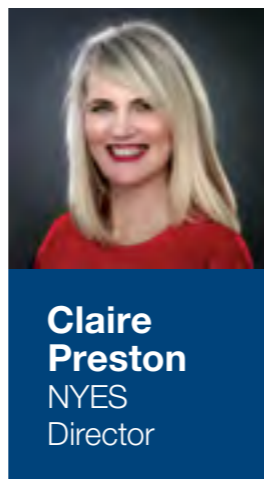

As we move towards the Autumn Term, we are, as ever, intent on providing you with the skills and support needed to meet the changing needs of your whole school community. Through this brochure, we wish to share details of the work that our services have been doing to develop our existing portfolio of training; we want to provide you with the very best in training and learning across all areas of education delivery and management.

Many of our popular face to face courses have now been adapted and are available with new, online and virtual training opportunities. Here we give you a taster of what is on offer through webinars in the coming months and as we continue to develop our digital service offerings daily at present, we will update you regularly with new and exciting options. Please do get in touch if you can't find what you are looking for, we'd love to hear from you and we'll do our utmost to meet your needs.

We've seen amazing adoption of new technology for teaching and learning and know that this will continue to be a big part of delivery in the future, but do recognise that all schools are unique and colleagues will be still at different stages in their digital journey; we can help here too. If there is anything you are unsure about, we can help you with your own digital learning, strategy or technical needs. If it plugs in, logs on or goes on line, we can help!

You'll find links alongside the courses, click on these to find out more about the training on offer and to book. Please note, some courses will still have limited spaces so please do book in advance to secure your place.

We look forward to welcoming you on a future training event and being part of your professional journey.

If you need any further information or have additional training requirements, please get in touch so we can discuss your needs with you: [nyes@northyorks.gov.uk](mailto:nyes@northyorks.gov.uk) or visit: [www.nyestraining.co.uk](http://www.nyestraining.co.uk)

### Why choose us:

- **We are education specialists** – we only provide services to the education sector and have an enviable wealth of knowledge, experience and expertise in educational settings
- **We genuinely want to make a difference** – we work with all of our customers to support them as they help pupils to be happy, healthy, safe and achieving
- **We innovate to make a positive change** – we work in partnership with our customers to continually develop our services to meet current and future needs
- **We are not for profit** – all of the surplus revenue we generate goes back into supporting the delivery of frontline services such as social care and CYP services

## EdTech

### EdTech consultation – FREE

Our expert EdTech adviser will provide a free remote consultation, helping to support you to develop your vision and plan for the use of technology to support learning in your school or setting. We can then provide impartial advice and a summary of the next steps to help you succeed on your digital journey.

### Bespoke consultation

Our virtual evaluation and assessment with our specialist adviser will signpost potential developments and empower leaders within schools to develop an informed strategy to successfully enable remote learning, school teaching or a blended approach.

To discuss your requirements please contact our team who will guide you through the best option for your school or setting: [nyes@northyorks.gov.uk](mailto:nyes@northyorks.gov.uk)

If you need any further information or have additional training requirements, please get in touch so we can discuss your needs with you: [nyes@northyorks.gov.uk](mailto:nyes@northyorks.gov.uk) or visit: [www.nyestraining.co.uk](http://www.nyestraining.co.uk)

## Veritau

Why are good data protection practices essential, and how can you embed these in the day-to-day running of your school?

Veritau's new e-learning courses are specifically designed with schools in mind. From an introduction to GDPR to specific modules on subject access requests and information security, we've got you covered.

Our package includes eight courses that all your staff will have access to for two years after purchase. Some topics will be useful for all staff who handle personal data, and others are more specific to different roles such as information asset owners. Modules are interactive and many include a short quiz to check understanding.

To purchase any of these courses please visit our website: [www.veritau.co.uk](http://www.veritau.co.uk)
